Hi everybody,

Looking for a front bumper and spoiler for a pre-lift J11. Condition is not important - can even be in a couple of pieces, as long as at least 80% of the part exists. Please send a private message with an offer (can also be in German - I understand a little).

I also have some used parts for J11/J63 in case you're interested in exchange. I can also repair or make a reproduction of composite (GFRP) parts.

Thanks for reading!

Hi Marcin,  
welcome among the Espace friends!

Sounds good to have you here on board. Contacts for piece exchange are always good.  
:applaus:

Best regards  
Uli
